## Clarmon joins forces with CSols

Clarmon Corporation announces signing an agreement with laboratory informatics company, CSols. The agreement will set the base for a valuable partnership between the two companies. CSols experience in the Pharmaceutical and Biotechnology industries will combine with Clarmon's premier product, QValid to deliver advanced solutions for validating laboratory systems.

"Our partnership with Clarmon allows us to set a new standard in Computer Systems Validation," said Kyle McDuffie, President of CSols, Inc. "By combining our respective core competencies, we will provide customers with a complete and distinctive experience in Computer Systems Validation," Mr. McDuffie added.

### About CSols

CSols is an internationally acclaimed laboratory and informatics company that works with major Pharmaceutical and Biotechnology companies providing optimized software solutions.

CSols offer a range of services that focus on Laboratory Informatics Selection, Implementation and Validation. The company possesses advanced expertise in all major commercial LIMS and Chromatography Data Systems.

CSols has offices in the US and UK with a sampling of clients that includes AstraZeneca, Bristol-Myers Squibb, Eli Lilly, GlaxoSmithKline, Merck, and Novartis.

### About Clarmon Corporation

Clarmon Corporation provides integrated software applications for the management of structured content within a number of target industries. Most of Clarmon's clients to date have been in the Pharmaceutical, Biotechnology and Medical Device Industries.

Through its QValid application Clarmon provides a powerful tool to allow companies to achieve regulatory compliance faster and easier. By removing tedious manual tasks for Quality Assurance, QValid drives costs down, and diminishes the risk of non-compliance.

Clarmon Corporation is headquartered in London, with a development and consultancy team in Bucharest Romania and sales staff in Dubai and Singapore.
