
Dr. Siegfried Schmitt has joined Clarmon's advisory board.

Clarmon Corporation is proud to welcome Dr. Siegfried Schmitt as the newest member on the advisory board.

His experience in computerized systems, pharmaceuticals and medical devices will be leveraged to increase the efficiency of Clarmon's compliance management solutions.

QValid, the main application developed at Clarmon addresses the inefficiency of current documentation systems. By linking related data across all documents and connecting these documents to specific regulatory requirements, QValid reduces the effort needed to maintain up-to-date information and the chances of non-compliance.

Dr. Siegfried Schmitt is a chartered chemist and chartered scientist with 19 years experience as a production and quality assurance manager in the industry and as a consultant for several international consulting firms. His area of expertise covers pharmaceuticals, medical devices and especially computerised systems.

He is a principal consultant with PAREXEL Consulting in the Strategic Compliance and Operational Performance Excellence team. Siegfried regularly publishes articles on scientific and business subjects, and has written several books. He speaks on a variety of topics at international conferences and industry meetings.

About Clarmon Corporation

Clarmon Corporation provides integrated software applications for the management of structured content within a number of target industries. Most of Clarmon's clients to date have been in the Pharmaceutical, Biotechnology and Medical Device Industries.

Through its QValid application Clarmon provides a powerful tool to allow companies to achieve regulatory compliance faster and easier. By removing tedious manual tasks for Quality Assurance, QValid drives costs down, and diminishes the risk of non-compliance.

Clarmon Corporation is headquartered in London, with a development and consultancy team in Bucharest Romania and sales staff in Dubai and Singapore.
